

## Oncology / Inflammation chemical libraries

Apoptosis  
Modulators of proliferation and differentiators of stem cells  
HSP90  
Akt Kinase library  
Apoptosis library  
Signaling and developmental pathway modulators  
Aurora A/B Kinase library  
BCL2/MCL1 library  
c-Met Kinase library  
Chemokine library  
EphB4 inhibitors library  
GSK3b library  
HDAC library  
IGF-1R library  
Methyltransferase inhibitors library  
MK2 inhibitors library  
p2x7 focused library  
PDZ library  
Phosphatases library  
p13 Kinase library  
RAR library  
Secretase library  
Serine/Cysteine Proteases inhibitors library  
Steroids/steroid-like library  
Sulfotransferase inhibitors library  
GPCR platform set  
Ion Channels platform set  
Kinases platform set  
Peptidomimetics  
Natural-like
